

# AQUAFEED

**ADVANCES IN PROCESSING & FORMULATION**

The Aquafeed.com e-magazine

## NEW for 2010!

In 2009 we published pilot issues of a digital magazine to compliment our web portal and newsletters. [AQUAFEED: Advances in Processing & Formulation](#) was so well received that we will publish the PDF-format magazine regularly in 2010. Every issue will be sent to every one of our Newsletter readers, as part of their subscription, and archived on Aquafeed.com for web visitors.

**EDITORIAL:** The focus of the magazine is breakthrough developments in aquafeed technology and formulation. Technically-oriented articles that describe new products, feeding trial results and case studies are invited. We welcome brief news items as well as longer technical articles of up to 1,000 words + photos. You may include hyperlinks to files on your own website (including media files). And links in editorial and ads are "live".

**ADVERTISING:** See below for advertisement rates and formats. Color is at no additional charge and all prices are inclusive.

Please contact John Brown for more information at: [sales@aquafeed.com](mailto:sales@aquafeed.com).
